## Lumberyard Arts Center, Inc. Hiring First Staff

2017 will be a year of significant change at the arts center! We are excited to announce the center has been awarded private donor grant funding to hire a part-time staff. We look forward to filling the position by summer. We anticipate this will create greater continuity, expansion of programming and events, as well as overall growth for the organization.

Historically, the board and many volunteers have staffed all aspects of the arts center.

An historic downtown icon, Baldwin Lumber, was transformed into a working arts center as a result of considerable volunteer time and labor, along with dollars from the community. The project began in 2003 with development of the idea followed by fundraising. The doors opened to the front half in 2010. The arts center has become the home for arts in Baldwin City, in addition to providing a unique venue for community and private events. The board wishes to thank all the

volunteers, past and present, for giving life to the vision of the arts center.

With the addition of a staff, the board is anxious to focus on plans for completion of the second half of the building, the Swan Theater.

We look forward to a grand future with the community of Baldwin City!

—LAC, Inc. Board

## Mural Program

The Baldwin City Community Mural Program is a carefully planned movement of art that has been in progress for over a year. Logistically, the Baldwin City Tourism Bureau, Lumberyard Arts Center, Baldwin City Chamber of Commerce and the City of Baldwin City alongside countless community members, has envisioned the great opportunity to paint our walls with the stories that have built our city. The very first installation is in the works as of Spring 2017! This mural will be adjacent to the Fire House in downtown Baldwin City. Designs are being collaborated on by a group of community members, 3 artist apprentices: Ella Conover, Alaina Schifflbein, and Meagan Young with artist Dave Loewenstein and artist assistant Nicholas Ward.
